

# WILDERNESS SCHOOLING

## NOT ALL CLASSROOMS HAVE FOUR WALLS

**Wilderness Schooling** is an innovative and evidence-based approach to raising attainment by using the outdoor world to bring **Maths, Science and English** alive. **Wilderness Schooling** makes a proven difference to SAT results and emotional wellbeing. We offer a wide range of programmes, delivered by a team of highly experienced teachers.

Our programme will double the rate of academic progress – a big claim, but one we're pleased to back up with published evidence.

**Come and discover what all the fuss is about: £2,050 for up to 18 children.**

Includes a School Outcome Study, proving impact.

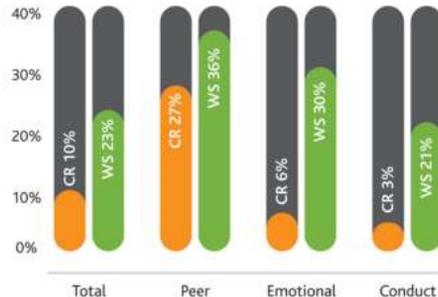

**Wilderness  
Schooling**

### Positive Impact of Wilderness Schooling on Social and Emotional Well-Being

CR = Classroom, WS = Wilderness Schooling

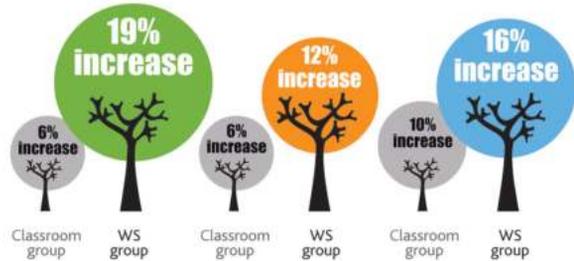

Wilderness Schooling: Outdoor learning for mental health & well-being in children.  
Quibell, T. & Charlton, J. (2017) in press

In addition to Wilderness Schooling, we also deliver

- Staff CPD in integrating outdoor learning across the curriculum
- A three stage process whereby your staff become Wilderness Schooling Practitioners
- Social skills and nurture programmes, focussing purely on social emotional and mental health
- As a bolt on to the above we can provide a School Outcome Study, proving impact
- School site development – plans and project management
- Archery

## Positive Impact of Wilderness Schooling on Attainment – **READING**, **WRITING** AND **MATHS**

Wilderness Schooling: a controlled trial. Quibell, T. & Charlton, J. (2017) British Educational Research Journal
